---

Rich,

I wanted to take this opportunity to send you a big thank you for all of your hard work! You have saved us on numerous occasions and I wanted to let you know how much we appreciate it.

I was updating a computer for a new employee and was getting ready to call you to ask you how to add our standard software to the system because the CD drive was not working. Before I could make the call, I noticed that you had put all of the software on our server so that we could download directly instead of having to cart the actual CD's around. I was singing your praises on that day and every other time I have worked with you (for the past 5 years).

You make our computers happy which makes us happy!!!!

Thanks for all you do,

Kristi Welton

A handwritten signature in cursive script that reads 'Kristi Welton'.
